

Parish Communication

It is important that parishioners be informed of the 2010 Parish Pastoral Plan Final Proposals for their parish. Parish leaders should consider using some of the ideas on how to share the plan with members of the parish as outlined in the Parish Planning Guidelines and the recent Final Proposal mailing. Both are available on the website at www.dio.org.

There are many ways parish leaders can share information and raise parishioner awareness. The following is a list of possibilities. Please check which method was used for your parish:

- Homily
- Bulletin Inserts
- Open Parish Town Hall Meeting
- Other (please explain)

▲

Note: Parishes are expected to report back to the diocese the method they used to report the plan to parishioners. Thank you for your cooperation.
